

BASKETBALL CANADA and CABO

Technical Points of Emphasis

Although there are no rule changes for the 2011 - 2012 high school basketball season there are technical points of emphasis through an initiative by Canada Basketball.

SABO has made officials aware of these technical points of emphasis at the various officiating clinics held around the province. Coaches of high school basketball should also be familiar with this initiative.

The three areas covered are:

1. Traveling
2. Illegal physical contact
3. Interaction between coaches and officials

For an overview of these three areas please see the following power point presentation and/or video which are also available through the [SABO](#) website.
