

## Volleyball Player Substitution Changes

The following information was received by the SHSAA office and will be adopted into the 2011-2012 volleyball season.

\*\* The Volleyball Canada substitution procedure will be adopted this year which is known as the quickie sub. The coach will no longer be required to call for a substitution or to be at the attack line when this occurs. The substitute merely moves into the substitution zone (between the attack line and the net) at the first dead ball situation and subs in for the designated player when authorized by the second referee. The second referee is no longer required to form a gate at the sideline for the sub.

For a video of the procedure, see [www.FIVB.org/en/technical/multimediarereferees/](http://www.FIVB.org/en/technical/multimediarereferees/)

The libero substitution remains the same.
